

Feedstock/By-Products Trader

Amsterdam

Now in our 27th year of business, we are the UK's leading supplier of road fuel, and the largest manufacturer of biodiesel from waste in Europe. We have biodiesel manufacturing facilities on the east coast of England (in Immingham and Teesside) and Amsterdam.

Due to expansion, an exciting opportunity has arisen for an experienced Trader - (Feedstock/By Products) to join our team based at the Oiltanking site in Amsterdam.

Working as part of the Global Biofuels team, the successful applicant will report directly to the Trading Feedstock Manager (Europe) have responsibility in the following areas:

- » Marketing the by-products of Greenergy's biodiesel plants, notably Glycerine, Potassium Sulphate, FAME Bottoms
- » Assisting with the supply of UCO, primarily into the Amsterdam site and managing supplier relationships
- » Assist with building UCO Sales/Trading Book
- » Negotiating and managing Methanol supplies for the plants
- » Barge chartering as and when required
- » Optimising shipping and haulage Logistics around the Amsterdam biodiesel plant, working closely with Greenergy's logistics team.
- » Explore Innovative logistics solutions - eg flexi bag processing with local sites
- » Liaise with Oil Tanking Amsterdam around storage/terms/logistics/operations
- » Assist Bio Plant Team in commercial negotiations as and when required

Requirements:

Strong negotiation skills

Understanding of Price Risk management an advantage

Experience of biodiesel feedstocks and by-products preferred

Dutch and English Speaker essential

The role will be based at the bio plant in Amsterdam but will require regular travel to the London office, UK biodiesel plants and various suppliers/customers.

If you are interested in joining the Greenergy team, please forward an up to date CV along with a covering letter in support of your application to deborah.rees@greenergy.com.
