

SharePoint Developer

An exciting opportunity to work as a SharePoint Developer within the dynamic IT delivery department of an established Global Fortune 500 fuels company. Within Greenergy SharePoint is beginning to play a big part in the way the company communicates.

We are looking for a personable and professional SharePoint developer to work alongside IT Business Analysts and stakeholders from our Communications team to:

- » Evolve existing SharePoint sites to develop enhanced solutions which are both internally and externally facing.
- » Create concepts and builds for new developments, which will include a process gathering requirement, both functional and non-functional, and the implementation of a range of additional technologies to improve functionality.

Responsibilities

Working with teams both in the UK and internationally, the SharePoint developer should deliver to the needs of the business with a view of value for money, functionality and visual appeal.

SharePoint sites delivered should adhere to strict coding standards and development best practices. These standards will be sole responsibility of the successful candidate.

The role involves taking a participating and consulting part in the discovery and design phases of multiple projects and then a leading role in the development and delivery stages.

Other activities include;

- » Attending team and design meetings
- » Attending design review and change approval meetings
- » Engaging in support function in a 2nd / 3rd level
- » Training appropriate to role

Targets

- » Rebuilding enhanced solutions for existing SharePoint sites
- » Delivering several new SharePoint sites that meet requirements and value for money
- » Build relationships with IT Business Analysts and testers
- » Build relationships with Communications teams and designers

Essentials

- » 1.5 years' plus experience as SharePoint Developer
- » Deep understanding of coding standards

- » Demonstrable knowledge of SharePoint 2013
- » Solid communication skills and experience of working first hand with business and IT teams

Desirables

- » Experience of implementing an intranet site
- » Experience of implementing a document management site
- » Integration of SharePoint to existing technologies
- » Agile delivery methodologies

This position will initially be on an 18 month fixed term contract, however we envisage that it is likely to be extended beyond this.

To apply for this role please submit a current CV along with a cover letter highlighting how you meet the competencies for the role and detailing your previous experience to Deborah.rees@greenergy.com

Your cover letter along with your CV will be used to assess your application, therefore applications without a covering letter will not be considered.

Please note, due to the volume of applications we regret to advise you that we are unable to respond to Candidates who are not short listed for this role.

If you should have any queries regarding this position please call Debbie Rees 01827 302298
