

Business Analyst

London

An exciting opportunity to work as a PM/BA within the Trading, Risk and Operations (TRO) IT delivery department of a Global Fortune 500 fuels company.

The TRO team is looking for an experienced BA with Project management understanding to lead on delivery phases of business critical IT projects within the Front to middle office departments.

The successful candidate should be an energetic individual wanting to join a team that prides itself on its business knowledge, strong analytical skills and a passion for both IT and Business.

Within Greenergy IT Project Managers and Business Analysts are responsible for the delivery of internal IT projects (reporting/implementations) playing a big part in influencing the way the company operates. We look for personable, professional individuals who will have a passion to shape the processes, systems and future of this fast paced company.

Acting as a go between for Business and the IT departments. It is the role of the BA to understand all areas of business process, structures and policies. It is the role of the PM/BA to convert these requirements into project plans with reasonable timelines and budgets.

The role will include at least one direct report of a Business Analyst. It will be the role of the PM to manage the time of the BA to ensure that project delivery timelines are upheld.

New developments will include a requirements gathering (functional and non-functional) process. This will happen in conjunction with stakeholders to understand an issue or new business area. It is the responsibility of the PM/BA to lead this process, capturing all requirements to deliver the change. Signoff of requirements will come from Business sponsors and IT leads.

Core skills

The successful candidate must be able to demonstrate skills to draw requirements from business users and develop these into project scope and delivery plans.

Communication is key to this role. Project sign off and delivery methodology decisions are made in conjunction with the business. The candidate should be able to present project options using proven analysis techniques, considering; cost, delivery timelines and best in practice technologies. The PM will conduct regular meetings with both senior stakeholders in the business and IT heads to update on all aspects of ongoing projects.

Experience

The candidate should have worked in a Trading IT delivery department. Experience of ETRM/CTRM systems are highly desirable.

Knowledge of physical commodity trading with in-depth knowledge of trade pricing and risk position is essential.

Greenergy has operations spanning across vessel purchases and scheduling, terminal operations, blending and logistical trucking. The TRO department feeds into all of these areas and experience in any of these areas would be beneficial.

Responsibilities

Working with teams from around the world, you will be responsible to ensure that design and development of new business requirements meet internal IT design standards. This should deliver to the needs of the business with a view of value for money.

The PM/BA will lead on discovery, design and development planning.

This role covers all phases of development; design, coding, internal/user testing, training, rollout and transition to support.

Targets

1. Delivering IT and Business process improvement
2. Deliver projects that meet requirements and deliver value for money
3. Act as a point of contact for IT development, support staff along with managers
4. Act as a point of contact for Business leaders
5. Liaise between the between the business and IT to deliver pound for a pound value

To apply for this role please submit a current CV along with a cover letter highlighting how you meet the competencies for the role and detailing your previous experience. Your cover letter along with your CV will be used to assess your application, therefore applications without a covering letter will not be considered.

Please note, due to the volume of applications we regret to advise you that we are unable to respond to Candidates who are not short listed for this role.
