

# Group Optimisation Analyst

London

Group Optimisation is the area of Greenergy responsible for providing guidance and information to ensure that the supply of product to Greenergy's delivered in customers is the cheapest possible. This requires constant communication with the Commercial and Scheduling teams.

The Group Optimisation department also has responsibility for all the Linear Programming (LP) models in use within the organisation. This responsibility includes where appropriate: Model maintenance, Planning runs and Backcasts.

## Main duties of the role:

- » Preparation of daily KPIs measuring the performance of the company's optimisation of delivered in costs
- » Interacting with schedulers to understand the reasons for deviations from the optimal schedule and logging those reasons
- » Collation and Reporting of weekly KPIs for the Executive Management Board of the company
- » Producing and reporting monthly backcasts of the Optimisation performance, as a means of monitoring performance and identifying possible ways to improve in the future.
- » Developing backcasts in other areas of the company's activities using the LP knowledge and skills developed in the Optimisation area.
- » Maintaining the data represented in the existing LPs up to date and ensuring that the LPs work as intended.
- » Ad-Hoc reports to management
