

Graduate BioFuels Trading Accountant

Manchester

Greenenergy is a fast paced and growing organisation. Each employee adds value to the business and the expectations are high. Greenenergy is a big organisation with a small company mind-set. The work is diverse and interesting; we are constantly evolving and improving.

Greenenergy supplies road fuel to customers in the UK, Canada and Brazil. We operate globally with offices in Canada, the USA, Brazil and Dubai and source fuels from around the world, receiving over 700 shipments annually. To deliver fuel to our customers, we also have an in-house haulage operation employing over 450 drivers. Greenenergy is a major investor in the UK's fuel infrastructure, regenerating import terminals that are essential to the country's ongoing supply security. Greenenergy Fuels is the largest trading entity of the group, supplying 15 billion litres of fuel to its customers each year. It represents one of the most complex areas of the group in terms of accounting and reporting.

Located in Didsbury, Manchester

The role is based in our Finance Shared Service Centre based on the beautifully landscaped Towers business Park in Didsbury with easy access to the motorway network and Manchester City Centre which is 11 minutes away by train.

The Role

Working within the UK Supply reporting team; one of the most complex and challenging areas. Responsible for all aspects of the financial management of the Biofuel Ethanol trading book and assist with the UK Supply Gasoline trading book as well as helping others manage their trading books within the team:

- » **Management Accounting & Reporting** – Assist with the preparation of management accounts under Mark to market accounting, together with meaningful commentary & analysis to meet the group timetable and the needs of the management team. Support relevant company Executives in understanding the weekly/monthly financial performance of their business area
- » **Trading book focus** - Be the trusted expert on all financial aspects of your trading book, ready to be called on as required by both finance colleagues and the wider business.
- » **Middle office to back office reconciliation** – Understand the way the business reports its results internally, via the middle office Risk team, and how those results translate to back office accounting and the general ledger.

- » **Relationship Management** - Actively contribute to business planning process ensuring assumptions are aligned with your knowledge of your trading book.
- » **Business Planning & Financial Analysis** – Actively contribute to business planning process ensuring assumptions are aligned with your knowledge of your trading book.
- » **Ad hoc queries** - Assisting with ad-hoc finance queries in relation to your book.

Required competencies:

- » Degree (2.1 or above)
- » Possesses and demonstrates real analytical skill and can apply a logical approach to new challenges
- » Be a strong communicator and possess an ability to develop trusting and credible relationships at all levels of the business, to director level, and to respect different opinions and ideas
- » Have a questioning and inquisitive mind – not afraid to ask questions or challenge convention, nor to drive improvements and efficiencies as appropriate
- » Takes personal responsibility and accountability for their work – you will own everything reported.
- » Able to analyse and interpret significant quantities of financial data and relate back to business issues.
- » Be flexible and adaptable – this is a key role within one of the largest teams in finance and there will be times it will be required to step up and move out of their comfort zone
- » Ambitious, enthusiastic and looking to progress within a reputable and fast moving organisation.
- » Sound excel skills
