

Greenenergy Belledune

Our Belledune fuel terminal offers competitively priced fuel supply to the Atlantic market

About us

In business for over 30 years, Greenenergy is an international fuel supplier and manufacturer of waste-based biodiesel, our unique global supply chain and terminal network enables us to source and supply fuels from multiple sources, minimizing any dependence on specific refiners.

Superior supply reliability for our customers.

We will make every effort to provide you with the best combination of price and service and work to meet the specific needs of your operation.

In 2025, we commissioned our Belledune terminal in partnership with the Belledune Port Authority. Our vessel and truck fed terminal provides a seamless driver experience and efficient invoicing process for its customers.

Quality fuels offered

Our Belledune terminal offers 24/7 truck loading capabilities for the following quality fuels:

- » Ethanol blended gasolines (RUL)
- » Ethanol blended premium (PUL)
- » Diesel (ULSD) clear and dyed
- » Marine Diesel
- » Renewable Diesel (HDRD)
- » Furnace Oil (ULSF)

All Greenenergy fuels go through effective quality processes and procedures.

Our fuel is tested by independent third-party labs to confirm its quality standards.

Safety

Safety underpins everything we do. We create safe working environments by continually working to identify, assess and mitigate the risks associated with our operations.

We encourage and empower every individual working across the business to observe and report hazards, near misses or unwanted events, however small, without fear of blame.

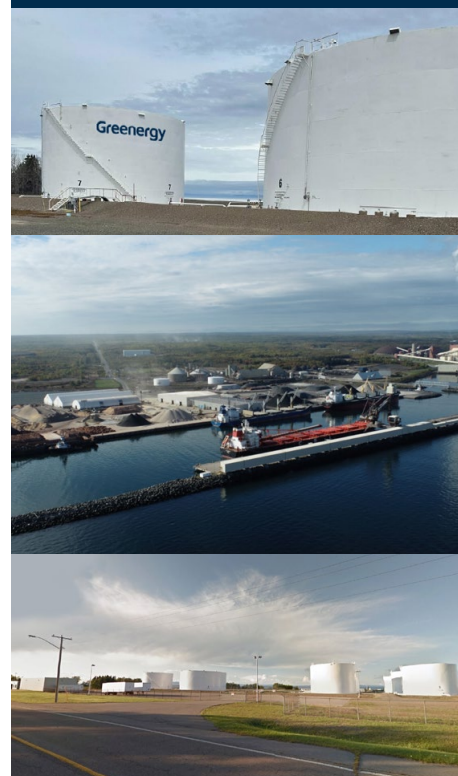

KPIs

We provide the best refined systems, controls, and a high level of transparency to our customers.

To keep you informed, we continuously evaluate and monitor KPIs at all our terminals.
