

Greenergy Concord

Our Concord fuel terminal provides reliable, competitively priced, local fuel supply to the Greater Toronto Area.

About us

In business for over 30 years, Greenergy is an international fuel supplier with global supply chains and access to strategic infrastructure, supporting commercial, wholesale and retail customers.

Since entering the Canadian market in 2013, Greenergy has expanded its supply infrastructure with a focus on bringing quality, reliable, low-cost fuels close to its customers.

Superior supply reliability for our customers.

We will make every effort to provide you with the best combination of price and service and work to meet the specific needs of your operation.

Our Concord terminal opened in 2015 in partnership with CN. We have since doubled the size of the rail and truck fed terminal to better meet our growing customers demands.

Quality fuels offered

Our Concord terminal offers 24/7 truck loading capabilities for the following quality fuels:

- » Ethanol blended gasolines (RUL)
- » Premium gasoline (PUL, EPUL)
- » Diesel (ULSD) clear and dyed
- » Bio blended diesels
- » Ultra-low sulphur furnace oil

TOP TIER™ detergent gasoline approved fuels are also available.

All Greenergy fuels go through effective quality processes and procedures.

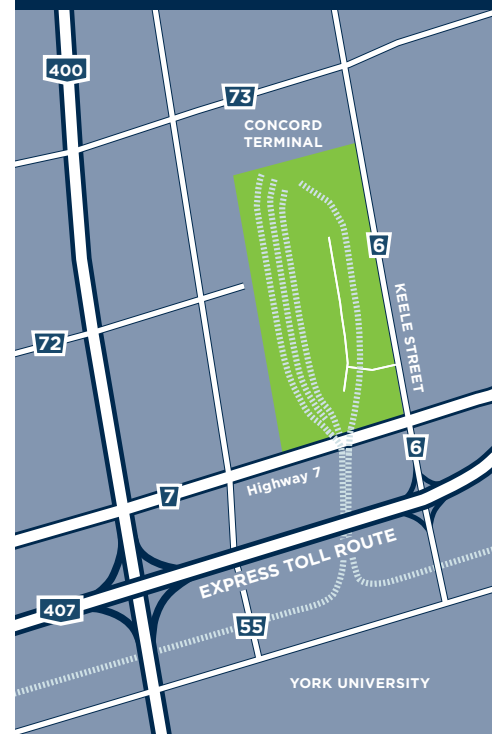

Our fuel is tested by independent third-party labs to confirm its quality standards.

Safety

Safety underpins everything we do. We create safe working environments by continually working to identify, assess and mitigate the risks associated with our operations.

We encourage and empower every individual working across the business to observe and report hazards, near misses or unwanted events, however small, without fear of blame.

Conveniently located, the terminal is a few minutes North of the 407, off Keele Street, in the CN CargoFlo rail yard

Greenergy

8820 Keele St, Concord,
Ontario, L4K 2N2
